ABCs of Pediatric Feeding & Swallowing Module V: Feeding & Swallowing Issues in Premature Infants

ABOUT SPEAKERS

Monica Wojcik, M.A., CCC-SLP is a certified speech instructor in Neurodevelopmental (NDT) Treatment. She specializes in the assessment and treatment of oral-motor, feeding, and respiratory-phonatory problems in infants and young children with neuromotor disorders. She has extensive clinical experience in rehabilitation centers, pre-school therapy centers, and over 16 years of experience in the Neonatal Intensive Care Unit. Ms. Wojcik is in private practice in Plantation, Florida and serves as an adjunct graduate faculty member at Nova University.

Rona Alexander, Ph.D., CCC-SLP, specializes in the assessment and treatment of oral-motor, feeding/swallowing, respiratory-phonatory function in infants and children. She is an NDT Speech Instructor in the 8-week pediatric NDT course and advanced courses. She lectures throughout the United States and has authored a number of articles and is coauthor of "Normal Development of Functional Motor Skills: The First Year of Life." She is currently in private practice in Milwaukee, Wisconsin.

Robert Beecher, M.S., CCC-SLP was senior speech-language pathologist at Children's Hospital of Wisconsin in Milwaukee. He specialized in the field of pediatric feeding/swallowing with emphasis on the development of protocol and procedures for the use and analysis of pediatric videofluoroscopic studies of the swallowing process. He is co-developer of the Multiple Application Multiple Articulation Seating System (MAMA) for infants and children. Mr. Beecher lectured throughout the United States on the issues involved in pediatric feeding and swallowing.
ABCs of Pediatric Feeding & Swallowing Module V:
Feeding & Swallowing Issues in Premature Infants

Topic Index

Part 1
Embryological Development of the Gastrointestinal System.

Part 2
Embryological Development of the Respiratory System
Development of Respiration
Embryonic Stage

Part 3
Development of Respiration
  Pseudoglandular Stage
  Canicular Stage
  Alveolar/Terminal Sac Stage
Introduction to the Premature Infant
The Intrauterine Environment

Part 4
Definitions of Age and Size
Neonatal Complications

Part 5
Neonatal Complications cont.
Risk Factors

Part 6
Developmental of the Premature Infant

Part 7
Development of the Premature Infant continued

Part 8
NICU Environmental Observations
Premature Infant States
Pre-term Statistics & State Transitions
Stress Cues

Part 9
Assessment: Neonatal Intensive Clinical Evaluation (NICE)
  General Feeding Information
Part 10
Assessment: Neonatal Intensive Clinical Evaluation (NICE)
   Oral-Motor
   Non-nutritive/Nutritive
   Feeding Example: Disorganized Suck

Part 11
Feeding Example: Disorganized Suck continued
Rib Cage Work & Facilitation of Swallow
Developmental Intervention
Environmental Factors and Modifications

Part 12
Environmental Factors and Modifications
Therapeutic Touch: Kangaroo Care

Part 13
Therapeutic Touch: Infant Massage

Part 14
Oral-Motor Intervention in the NICU: Non-Nutritive Suck

Part 15
Oral-Motor Intervention in the NICU: Nutritive Suck
Oral-Motor Intervention in the NICU: Tongue Positions

Part 16
Oral-Motor Intervention in the NICU: Nippling Methods
Oral-Motor Intervention in the NICU: Breast Feeding

Part 17
Feeding Examples
Family Care

Part 18
Tracheotomies & Ventilation Issues

Part 19
Tracheotomies & Ventilation cont
Special Populations: Cerebral Palsy/Gastrointestinal Issues

Part 20
Special Populations: Cerebral Palsy/Gastrointestinal Issues
Part 21
Special Populations: Cerebral Palsy/Gastrointestinal Issues cont.
Special Populations: Cleft Lip and Cleft Palate
Special Populations: Syndromes

Part 22
Special Populations: Syndromes
Instrumental Assessments

Total Viewing Time (21hrs. 48 min.)
Total Time Granted for Written Material (90 min.)
Total Hours Granted: 23 Contact Hours / 2.3 CEUs
